Glee Earl Rupal

Product Designer (UI/UX)

glee.rupal@gmail.com Cebu City, Philippines linkedin.com/in/gleearl design.gleearl.com

Full stack product designer with 9 years across UI/UX design and frontend development. I make digital products that look good, feel right for the people using them, and work better because I know how they're built.

Experience

UI/UX Designer @ MIMS Pte Ltd

February 2024 - Present

- Design end-to-end web experiences for medical education and drug reference platforms used by healthcare professionals across Asia.
- Design new features and redesign existing flows for the MIMS Education and MIMS Drugs mobile apps, consistent with web.
- Lead GA4-informed UX proposals to final design, lifting engagement and retention.
- Conducted user interviews and concept testing with doctors, turning findings into prioritized design decisions.
- Built design system foundations (tokens, typography, Figma libraries) and streamlined design-to-code handoff with Claude Code and Figma MCP.

UI/UX Designer @ Humedit

July 2022 - December 2023

- Owned the design of three apps in Humedit's Philippine product line (accounting, HR and point of sale), from wireframes to high-fidelity prototypes.
- Partnered with cross-functional teams to design for usability and accessibility across diverse user groups.
- Shipped production frontend features in Angular and Vue, true to the design.

Full Stack Designer @ Hurdman, Inc

December 2018 - May 2022

- Established the team's frontend setup with JavaScript, HTML5, CSS3 and SASS.
- Translated design prototypes into production-ready, mobile-responsive web UI.
- Delivered full-cycle design for client projects, including work contracted by the Better Business Bureau (BBB).

Jr. Web Designer @ Mopro

April 2017 - October 2018

- Designed and built landing pages, microsites and training sites for enterprise clients.
- Developed responsive pages in HTML, CSS and JavaScript, tested across browsers.
- Collaborated with designers and PMs to launch client sites and handle revisions.
